gWorks builds software that helps small local governments work better. Our clients are public servants, city clerks, utility billing staff, public works teams, and county administrators. These are the folks who keep their communities running smoothly. Their work is essential, but often constrained by outdated tools.

We fix that. Our cloud-based platform replaces legacy systems with simple, integrated software built specifically for small governments. We serve thousands of communities nationwide, streamlining operations, improving service delivery, and making day-to-day work more manageable.

We're consolidating several acquired products into one platform and guiding our clients through this transition. It's complex, important work that requires a team that can execute at a high level to help drive that transformation.

The Role:
As an **Implementation Specialist**, you'll be the primary guide for clients adopting gWorks software. From project kickoff to go-live and seamless handoff to Client Success, you'll combine technical expertise with strong client relationship skills to ensure every onboarding experience is smooth, impactful, and sets clients up for long-term success.
This is a great role for someone who thrives in a client-facing environment, has strong organizational and technical skills, and is passionate about helping others unlock value from technology.

utilization, and see value quickly.

- **Track & Analyze**
  Monitor onboarding project progress, gather client feedback, and analyze data to measure success, identify risks, and improve processes.
- **Collaborate Cross-Functionally**
  Partner with Product, Client Success, and Support teams to share insights, resolve issues, and contribute to ongoing software and process improvements.
- **Document Everything**
  Maintain clear and accurate documentation throughout onboarding to ensure transparency and alignment across teams.

What You'll Bring:

- 4+ years of experience in client onboarding, implementation, or software adoption
- Experience working with SaaS platforms; municipal or GovTech background a strong plus
- Ability to configure and troubleshoot software solutions, particularly in accounting, payroll, or government workflows
- Excellent communication, coaching, and organizational skills
- Strong problem-solving skills with a proactive, analytical mindset
- A track record of balancing responsibility, authority, and accountability
- Self-starter mentality with strong ownership and follow-through
- Collaborative spirit and a passion for helping clients succeed

Compensation & Benefits:

- Base Salary Range: 68,000- 80,000
- Full medical, dental, and vision insurance
- 401(k) with company match
- Flexible PTO and paid holidays
- A collaborative team culture that values autonomy, growth, and execution

Equal Opportunity Employer:
gWorks is an equal opportunity employer. We value diversity and are committed to creating an inclusive environment for all employees. All qualified applicants will receive consideration without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or protected veteran status.

Work Authorization Notice: At this time, gWorks is unable to sponsor employment visas or work authorization of any kind. This includes, but is not limited to, H-1B, TN, OPT, E-3, or any other immigration status. Therefore, we cannot consider applicants who require or will require future visa sponsorship to work in the United States.

GROW WITH US
